

# Protective Blankets and Security Chests

## Protect yourself and your equipment.

### Power Team protective blanket

Our blankets are designed to contain broken or flying parts from the most extreme forces, thus resulting in a much safer work environment.

**Testing results:** In our lab, this style of blanket held the parts of a necked-down grade 8 bolt, which shattered in a 100 ton center-hole hydraulic cylinder. The blanket sustained no visible damage when shot with a force and impact that shattered safety glasses!

- Effectively contain broken or flying parts from the most extreme pulling, pressing, pushing or stressing forces.
- Ideal for use with pullers and forcing presses.
- Made of see-through, high-tensile, tear resistant material.
- Unlike rigid, fixed guards, these blankets can be wrapped and strapped around a job.
- The clear protective blankets allow you to visually monitor the job from start to finish.
- Protective blankets come in a carrying/storage pouch to reduce aging caused by prolonged exposure to light.

### ORDERING INFORMATION

Order No.	Size	Number of Straps	Weight
PB1230C	12" x 30"	2	2.8 lbs.
PB2036C	20" x 36"	2	4.2 lbs.
