

Sidewinder Mini Jacks

5-20 Ton Capacity

The Sidewinder Mini Jacks may be small (fits in the palm of your hand) but don't let their compact size fool you. They deliver 5, 10 & 20 tons of lifting force.

- Retracted height of just 2⁹/₁₆" for the smallest jack and 5¹/₈" for the 20 ton, allows you to slip this jack into the narrowest of crevices.
- Jacks operate either horizontally or vertically. Handles function in line with base for easier use in confined spaces.
- The perfect addition to any toolbox, this remarkable little jack has multiple uses that are limited only by your imagination. Use it as a jack or a spreader. Use it to turn your mechanical gear puller (puller capacity must match jack capacity) into a hydraulic puller. Use it vertically or horizontally in limited clearance.
- All jacks meet ASME B30.1 standards and carry the Power Team Marathon Lifetime Warranty.
