

MAX-UP-ENDERS

Lift Products, Inc.

The Max-UP-Enders series is ideally suited for tipping loads up to 90 degrees. Available with capacities of 2,000 lbs to 6,000 lbs and a variety of standard platform sizes.

The Max-UP-Enders are also available custom built for those special handling requirements. Designs of open frame, V-block, split platform, and special sizes are just a few of our custom capabilities.

Model	Capacity	Upper Platform	Lower Platform	Lowered Height
LPTT-UP-20-90	2,000 lbs	24" W x 24" L to 72" W x 72" L	24" W x 36" L	10"
LPTT-UP-40-90	4,000 lbs		to 72" W x 72" L	
LPTT-UP-60-90	6,000 lbs			

Note: Base frame is approximately 6" less than platform width and 12" less than combined length of both platforms

Standard Features

- 1-1/2 hp motor. 115/230 volt single phase or 230/460 three phase voltage
- A 30 amp dedicated circuit is required for 115 volt operation
- Motor is internally mounted on most models
- 10' power cord standard (connector not included)
- Hydraulic gear pump with check valve, solenoid valve, filter, and velocity fuse standard
- Contact factory for special electrical requirements.
- High quality chrome plated cylinders
- One, two or three double acting cylinders are supplied based on capacity & table size
- Push button magnetic back control box standard with 6' cord
- Control box includes magnetic starter transformer, thermal overload and fuses
- Powered up and down 90 degree tilt
- Tilt limit switch
- Color: yellow top with blue frame

Designed for surface mount or lift table mounting.
Contact factory for special in-floor requirements.

Options:

- Foot control switch
- Lowering beeper
- Remote power unit
