# Portable Scissor Lifts...

These nifty lifter transporters are perfect for a wide variety of uses; moving loads from one area to another, lifting loads to a convenient height for transferring them to work benches, or even as variable height workstations. A simple foot pump raises loads up to 2000 lbs. Double scissor units lift loads nearly 6 feet high.

- Rolls easily over any surface
- Requires no power
- Ideal for factory, warehouse, stockroom, or even office
- Economical alternative to powered lift tables

# Manual Lift Stackers...

These manual stackers are the ideal choice for low volume stacking applications. They can handle loads up to 1,000 lbs. and are available in two-leg configurations, fork-over for skids and open bottom pallets, and straddle for all pallets, even closed bottom styles.

- Extremely maneuverable with hand pallet truck style handle/steerwheel
- Lift, Lower, and Neutral controls all in comfortable ergonomic handle
- Easy adjusting fork carriage
- Casters lock for safety

This Mechanical Hand Crank unit is available in platform or adjustable fork models. For details, consult factory.

# Die Handling Tables

Available in Mechanical Crank 4 post style or foot actuated hydraulic, these tables are ideal for die handling applications. They're rugged enough to handle 2000 lb. loads, but are still ultra maneuverable. Choose platforms from as small as 24" x 36" to as large as 30" x 60".

## MECHANICAL

- Two speed hand crank
- Two fixed and two swivel casters
- Safety floor lock
- Self locking screw posts

## HYDRAULIC

- Up to 60" high
- Foot operated hydraulic pump
- Dual floor locks
